

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office MAY 3 1988

Returned to applicant for correction

Correction application filed

Map filed MAY 3 1988 under 52065The applicant Bently Nevada CorporationP.O. Box 157, of Minden,
Street and No. or P.O. Box No. City or TownNevada 89423, hereby make application for permission to appropriate the public
State and Zip Code No.waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Bently Nevada Corporation 21 October 19611. The source of the proposed appropriation is underground from a proposed well.
Name of stream, lake, spring, underground or other source2. The amount of water applied for is 0.223 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet

3. The water to be used for dewatering for environmental control.
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated:

(b) Stockwater, state number and kinds of animals to be watered:

(c) Other use (describe fully under "No. 12. Remarks") Temporary extraction for 12 months for environmental control.

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: SW 1/4 NE 1/4 Section 8, T.13 N., R. 20 E.,
Describe as being within a 40-acre subdivision of public
MDB&M, at a point from which the SW corner of said Section 8 bears S44° 17' 35" W
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
a distance of 4102 feet. (EX 9A)6. Place of use within portions of the NW 1/4 NE 1/4 and SW 1/4 NE 1/4 of Section 8, T. 13 N., R. 20 E., MDB&M
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

(temporary)

7. Use will be begin about 1 October and end about 30 September, of each year.
Month and Day Month and Day8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Well approx. 50' deep with pump and motor;
State manner in which water is to be diverted, i.e. diversion structure, ditches and6" casing; piping to a flow equalization tank and air stripping tower.
flumes, drilled well with pump and motor, etc.9. Estimated cost of works \$16,000 for well and pump

CORRECTED PERMIT

10. Estimated time required to construct works..... 3 months
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 1 year

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This environmental control well is part of a remedial measure reviewed by DNEP.
Groundwater will be extracted from the shallow aquifer and treated by air stripping. Treated water will be discharged to the stormwater drainage ditch and Heybourne Irrigation Ditch as reviewed by DEP.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with the said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

The permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.223 cubic feet per second, but not to exceed 50 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before..... July 11, 1989

Proof of completion of work shall be filed before..... August 11, 1989

Application of water to beneficial use shall be filed on or before..... July 11, 1991

Proof of the application of water to beneficial use shall be filed on or before..... August 11, 1991

Map in support of proof of beneficial use shall be filed on or before..... N/A

Completion of work filed..... SEP 19 1989

IN TESTIMONY WHEREOF, I..... PETER G. MORROS, State Engineer of Nevada, have hereunto set my hand and the seal of
